

UPDATED TRAVEL ADVISORY – JUNE 20, 2022

Effective Saturday 18 June 2022, Guyana lifted its Covid-19 testing requirements for international travellers arriving in Guyana.

The requirements for entering Guyana are as follows:

- Passengers, 12 years and over, must show proof of being **“FULLY”** vaccinated;
- Their names, name of vaccine, date vaccine was given and batch# from an accredited health facility must be clearly visible;
- Last dose of vaccine must be at least fourteen (14) days, prior to travel; and
- Travellers with a mixed vaccination regimen are considered vaccinated.

The approved COVID-19 vaccines are as follows:

1. Oxford-Astra Zeneca – ChAdOx1 vaccine
2. Sputnik V – Gam Covid Vac (1&2)
3. Sinopharm – Vero cell BIBP
4. Sinovac – Corona Vac
5. Pfizer-BioNTec Covid19-BNT162b2
6. Moderna – mRNA-1273 vaccine
7. Johnson & Johnson – Jansen COVID-19 Ad26CoV2.S Vaccine

Vaccination exemptions shall be applicable for the following reason:

- Passengers, who present a **“Letter of Exemption”** from a licensed medical practitioner **and/or** the Covid taskforce in Guyana.

A person is “ONLY” considered fully Vaccinated, 14 days after receiving:

- an approved single dose vaccine

- the second dose of an approved two dose vaccine
- any mix and match combination of approved vaccines, administered at least seventeen (17) days apart.

COVID-19 recovered persons must adhere to the following:

- Must present a certificate of clearance from a licensed medical practitioner.
